March Program: —Tour Mississippi River Distilling Company

Joint Meeting with local SWE Chapter

This month the Mississippi Valley Chapter of ASHRAE will be hosting the Quad Cities/Muscatine Section of SWE (Society of Women Engineers) for a tour of the Mississippi River Distilling Company in LeClaire, Iowa followed by a dinner at Happy Joe's where the two chapters will have a chance to socialize. The tour will walk you through the distilling process from start to finish and conclude with samples in the tasting room overlooking the Mississippi River!

The Mississippi River Distilling Company was started in 2010 after two brothers decided to take a chance on a dream. What started as a crazy idea has grown into a hugely successful company with products being distributed in 22 states and Washington DC. All spirits are hand crafted from local sourced ingredients and include River Baron Artisan Spirit, River Pilot Vodka, River Rose Gin, Cody Road Bourbon, and Cody Road Rye Whiskey.

Please register for this meeting by Monday, March 16th
