

ASPE Chapter #71 Seminar 2012

**Estimating
and
BIM**

Conceptual Estimating and Building Information Modeling

- Learn how to better understand relationship between design and cost as a team.
- See a demonstration and macro BIM software solutions in the marketplace.

The Presenter:

Corey Sanders is a project manager in Beck Preconstruction, Corey was an avid user and user-trainer of various cutting edge technologies used in take-off, scheduling, estimating, and building information modeling (BIM) for over 6 years. Corey has estimating experience in tenant improvement, renovation, and new construction projects ranging in value from one-hundred thousand to over one-hundred million and has worked in various delivery methods including construction manager at risk, design-build, and integrated project delivery. Corey is a graduate of Prairie View A&M University's college of Civil Engineering.
